Representative Testimonials

Bill Dykes

Vice Pres. The Tagos Group

"I've worked with Michael over the past several months on business development and partnering opportunities. Michael is very astute, focused, detail oriented, and importantly tenacious, when it comes to developing new business. He has outstanding relationships across a broad spectrum of business and government. Michael's real strength is closing the deal and making sure all parties walk away from the table assured that they have the best arrangement or representation possible." November 2, 2012

Dudley DeZonia

Pres. Royal Truck Body

Originally, we were introduced to Allawos and Co. as an organization with a "knack for improving production throughput". Well, it so happens that was only a small part of the story. In addition, we have found a Trusted Advisor who has made numerous contributions to many facets of the business. In addition to streamlining our production system, Allawos has redirected the utilization of our ERP; overhauled our IT systems; been the conduit to beneficial insurance and banking relationships; and is researching new manufacturing resources, globally and locally. Michael himself makes "The Allawos Experience" uniquely rewarding. He is straightforward, accountable, effective, fully invested, and smart-as-a-whip. Quite frankly, Michael is unlike any consultant we have ever known. October 19, 2012

James E. Solomon

CEO, AccelWind Holdings, Inc.

Allawos & Company, LLC has assisted us in identifying key technologies, partners and strategies, working to solve some critical and strategic infrastructure issues for our clients. These relationships assist both our organization, as well as our client's organization in reaching their corporate goals in a more timely and cost effective manner. Our company provides turn-key solutions for off and on-grid power and water projects. We have had the pleasure of working with Mr. Allawos over the past three years and have found his intelligence and candor very refreshing. We look forward to Allawos & Company's continued efforts in our behalf. January 18, 2012

Randal R. Moos

Pres. CEO, Atmospheric Water Systems

Allawos & Company is outstanding in identifying technologies which together make the standard for the "Green for All" movement / initiative's. Intelligent, resourceful, open-minded are just a few words that come to mind when describing the firm. Allawos & Company most certainly uses all of their capabilities to make a project successful. Our firm creates technologies which extract water vapor from the atmosphere then collects, filters and stores it for drinking. The firm identified our need for off grid capabilities and was able to successfully connect us with a viable energy partner and assist in our negotiation process. Inquire about what Allawos & Company can do for your business. January 17, 2012
